

EUTOPIA DATA-INFORMED STUDENT DEBATE

Join the online EUTOPIA inter-university debate 2022

This online debate is organised by the EUTOPIA Learning Community "Data and Critical Thinking"

WHEN?

March 2nd 2022 (afternoon)

WHO?

Students from the universities of the EUTOPIA alliance

WHAT?

You and your team will compete in 2 matches on 2 different topics (assigned beforehand). Display your argumentation skills in order to convince your opponents by using data-informed arguments and point out fallacies in their discourse to take their claim down. You will have 3 weeks before the event to prepare for the showdown! This activity's purpose is to give the opportunity for students to practice their data analysis, critical thinking and argumentation skills.

WHICH TOPICS?

- "To what extent is **climate change driven by human activity**?"
- "To what extent does **going vegan** help reduce our carbon footprint?"
- "What is the potential of the **development or artificial intelligence** in terms of carbon footprint reduction?"

HOW TO SIGN UP? (deadline extended)

Before signing up, please watch the [preparatory meeting video](#).

By **February 10th**, sign up with your team (3 people max) or individually (you will be assigned to a team).

[Click here to sign up](#) or scan this QR code.
