As part of EUTOPIA's Inclusion Month 2024, we are hosting an online seminar to explore the relationship between two key concepts in the EUTOPIA Alliance: 'inclusion' and 'internationalisation at home'. How do universities foster an international presence and mindset on campus, and how does this intersect with DEI priorities? What is the role of a European University Alliance in promoting internationalisation at home, and how can EUTOPIA do this in an inclusive way? We will hear from staff and students in various EUTOPIA partners, who will share perspectives both from their own local context and from cross-cultural initiatives they have worked on. There will be ample space for attendees to ask questions and contribute to the discussion. We look forward to seeing you!
