

ZENITH 2026

AEROSPACE SUMMER SCHOOL
CLUJ-NAPOCA, ROMANIA

6th Edition

WHO CAN APPLY?

If you are passionate about new emerging aerospace technologies and want to develop teamwork, problem-solving, and innovation skills in an international learning environment, the Zenith 2026 Aerospace Summer School is for you.

The program brings together motivated students interested in aerospace, technology, and innovation to work in multidisciplinary teams on real-world challenges related to drone technology and aerial mobility.

WHAT'S IN IT FOR YOU?

Recognition of practical training

The program is equivalent to 120 hours of practical training, which can be recognized by Babeş-Bolyai University.

Key Skills You Will Gain

You will develop skills such as problem-solving (in logistics, urban air mobility, medical transport missions, and innovative business models), teamwork, and technical thinking while working on real-world challenges.

Experience in a future-oriented field

You will explore how aerodynamics, drones, and aerospace technologies work in a practical and interdisciplinary environment.

Networking opportunities

You will have the chance to interact with aerospace professionals, entrepreneurs, and investors, ask questions, and gain insights into how the industry works.

Guided by experts, you will develop creative solutions related to drone logistics, urban air mobility, medical transport missions, and innovative business models. Throughout the program, participants will collaborate, design strategies, and present their solutions, gaining practical experience in addressing complex aerospace and societal challenges.

Program Overview

Who Organizes the Program?	Babes-Bolyai University from Cluj-Napoca, Romania
When will the program take place?	06–31 July 2026
Can the program be recognized as practical training?	Yes, equivalent to 120 hours of practical training.
Who can apply?	UBB students (Bachelor/Master)
How many places are available?	40 places
Application Deadline	15 May 2026
